

The National Situational Report (SITREP) serves as a crucial tool for providing a concise and comprehensive overview of the current national situation. Its purpose is to inform key decision-makers, stakeholders, and the public about the status, progress, and challenges related to the emergency response efforts. The SITREP aims to facilitate effective coordination, decision-making, and resource allocation by providing timely and accurate information. The SITREP plays a crucial role in keeping the public informed about any potential emergency situations. It provides updates on public safety measures, evacuation orders, health advisories, and other relevant information, helping to maintain public trust and confidence.

- An increase in Rallies & Protests continue to occur all across Canada due to the conflict currently ongoing in the middle east.
- Current weather and event advisories across Canada real-time: <https://alertable.ca/#/> & <https://weather.gc.ca/?layers=alert&zoom=3¢er=43.75610899,-83.06420066>
- Freezing rain and blizzards in Parts of Quebec.
- Winter weather expected in parts of Ontario today. Flood Warning Rama First Nation Ontario.
- Snowfall in parts of Nunavut.
- Flood Monitoring across all watersheds being observed due to warmer temperature and melting snow pack.
- Fire danger risk in Western Canada is Moderate.
- Fire weather map Canada daily: <https://cwfis.cfs.nrcan.gc.ca/maps/fw>
- Public health advisories - <https://www.canada.ca/en/public-health/services/public-health-notice.html>
